FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
- 3. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits dated March 29, 2010

• W1 – Workers Compensation State Fee Schedule Adjustment

Explanation of benefits dated November 24, 2010

<u>Issues</u>

- 1. Are the disputed services subject to a contractual agreement between the parties to this dispute?
- 2. What is the applicable rule for determining reimbursement for the disputed services?
- 3. What is the recommended payment amount for the services in dispute?
- 4. Is the requestor entitled to reimbursement?

Findings

- 1. Review of the submitted documentation finds no information to support that the disputed services are subject to a contractual agreement between the parties to this dispute.
- 2. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
- 3. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
